ADAM (Assessment Delivery and Management) is the platform where users can manage organization and assessment administration data for DC CAPE and deliver assessments online.

- In ADAM, users will be able to conduct test administration tasks, ordering materials, and access reports to view progress and activity which we will spend detailed time on in future trainings.

User Role Matrix

	Ability	LEA Test Coordinator	School Test Coordinator	Special Populations Coordinator	Technology Coordinator
1	View Organizations				
2	User file import/export				
3	Manually create users				
4	View User information				
5	Student Assignment Tag upload/manually edit				
6	Student Accommodation upload/manually edit				
7	Proctor Group upload/manually create				
8	Apply accountability codes				
9	Orders create, manage, edit, track, view reports				
10	View Progress and Activity reports				

Searching for Users

When searching for users be mindful of the Advanced filter dropdown to drill down to specific groups of users.

If you need to confirm who has already been added, modify or delete existing accounts, you can use available filters to view and access user accounts.

In the search results, you can click the Edit icon for a user to edit their account if needed, or the Delete icon to remove the account. LEAs accounts come from the automatic nightly feed from the OSSE system. If an LEA- level account needs to be modified it must go through OSSE AllStaff IDS.

The screenshot shows a user search interface with the following components:

- Clear Search**: A link to reset the search.
- Name or ID**: A dropdown menu with a search input field containing "olivia pope" and a clear button (X).
- Org**: A dropdown menu with the text "Filter by Org..." and a downward arrow.
- Role**: A dropdown menu with the text "Filter by role..." and a downward arrow.
- User Status**: A dropdown menu with the text "User Status" and a downward arrow.
- Accommodation**: A dropdown menu with the text "Filter by Accommodation..." and a downward arrow.
- Assignment Tag**: A dropdown menu with the text "Filter by Assignment Tag..." and a downward arrow.
- Advanced Filters**: A section containing six checkboxes, all of which are currently unchecked:
 - ☐ Show Unrostered
 - ☐ Show Temporary Students
 - ☐ Show Multiple Orgs
 - ☐ Show Role Override
 - ☐ Show Preferred Name Override
 - ☐ Show Single Sign On Users

The "Advanced Filters" section is highlighted with a red border in the original image.

User Import

User Import

- User accounts for School Test Coordinators, Special Populations Coordinators and Technology Coordinators must be created manually in ADAM.
- LEA Test Coordinators (LTCs) can create accounts for all three of these user roles. School Test Coordinators can create other School Test Coordinators, Special Populations and Technology Coordinators accounts for their school only.
- User accounts can be added individually or bulk uploaded.

Users can be created and updated now and throughout the testing window within the DC CAPE platform.

***NOTE:** If an account is needed for a new LEA Test Coordinator, they must be added as an LEA Assessment Manager (LAM) or DC CAPE Assessment Coordinator in the OSSE AllStaff collection

Creating Users – Individually

1. Navigate to **Rostering > Users**
2. In the upper right, select **Create New**
3. Enter the first and last name of the user
4. For Roles, pick only one :
 - School Test Coordinator (STC)
 - Special Populations Coordinator (SPC)
 - Technology Coordinator (TC)

If a user serves in multiple roles, keep in mind, the level of access that is needed. School Test Coordinators can create other users with the same role.

5. For **Identifier**, add the user's email, and then paste it into the **Sourced ID** field, **Username** and **Email** fields
6. Do NOT enter anything for grade
7. For **Org Scopes**, enter one school, or multiple schools if applicable

A screenshot of a 'User Setup' form. At the top, there is a back arrow, the title 'User Setup:', and 'Cancel' and 'Save' buttons. On the left is a sidebar with 'History', 'Information' (highlighted in green), and 'Preferred Names'. The main area is titled 'User Setup' with the subtitle 'Manage User Settings'. It contains several fields: 'First Name' (required, marked with a red asterisk), 'Middle Name', 'Last Name' (required, marked with a red asterisk), 'Role' (a dropdown menu currently showing 'None'), and 'Identifier' (required, marked with a red asterisk, with a sub-label 'Client defined identifier for user.'). The 'Identifier' field contains the text 'User Identifier'.

Creating Users – Individually

8. Do **NOT** set a password
9. Leave 'User enabled' checkbox selected
10. Select the '**Send Welcome Email**' checkbox
11. Click **Save**

You will see a temporary pop-up message in **green** confirming the user is added.

12. Click the **Back** arrow button
13. Repeat steps as needed to add more users

The screenshot shows the 'User Setup' form with several red boxes highlighting specific elements: a back arrow button in the top left, the 'Save' button in the top right, the 'Set Password' button (which is crossed out with a red diagonal line), the 'User Enabled' checkbox and its description, and the 'Send Welcome Email(s)' checkbox and its description. The form includes input fields for 'User Sourced ID', 'Username', and 'User Email' (containing 'ol'). A sidebar on the left contains links for 'History', 'Information', and 'Preferred Names'.
