2025 Test Administrator Large Print Scripts for Paper-Based Testing

Mathematics

**The Test Administrator Large Print Script must be used with the
*Test Administrator Manual for Paper-Based Testing.***

Tasks for Test Administrators to Complete BEFORE Large Print Testing

Refer to Section 3.0 of the *Test Administrator Manual for Paper-Based Testing* for more information on tasks to complete before testing.

Note:

- Students will not record their answers in standard print Test Booklets. Rather, students will circle their answers in the Large Print Test Booklets. For constructed response items, students will write their answers on the lines provided in their Large Print Test Booklets.
- Throughout the scripts, there are several instances which instruct Test Administrators to demonstrate an activity. Ensure that this is done where it is visible for each student (e.g., on the board or near the student).
- In mathematics, students will need to write their answers in boxes at the top of the Answer Grids, but they do not need to bubble in their answers.

Before students arrive for each section, do the following:

- Ensure that the testing room is prepared as described in Sections 2.3 and 3.5 of the *Test Administrator Manual for Paper-Based Testing*.
- Verify you have the schedule of times for the test sections to be tested.
- Make sure you have the correct test booklets for your group to be tested.
- As appropriate, draw a timing box on the board, similar to the ELA/Literacy example in the *Test Administrator Manual for Paper-Based Testing*.
 - Write the name of the test section you are administering on the Section Name line in the timing box on the board.
 - Using the Section Testing Time tables in Section 2.4 of the *Test Administrator Manual for Paper-Based Testing* for reference, write the Section Time on the correct line in the timing box on the board.
 - Do not fill in the Starting Time or Stopping Time lines until instructed to do so in the scripts.
 - If one or more students are testing with extended time accommodations, you will need to adjust the amount of time each student will have to complete each section. Refer to each student's accommodations for information on extended time, and follow the guidelines outlined in **Appendix E** of the *Accessibility Features and Accommodations Manual*.
- For math sections, ensure that you have sufficient calculators for students. Do not hand them out until the student reaches the calculator section of the test. Note that a student may have an accommodation which permits the use of a calculator during non-calculator sections.
- Make sure you have a list of the accommodations for the students testing, consult the plan established in **Appendix A** of the *Accessibility Features and Accommodations Manual*.
 - If the students in your group require a Human Reader, follow the protocol outlined in **Appendix B** of the *Accessibility Features and Accommodations Manual*.
 - If the students in your group require an extended time accommodation, follow the guidelines outlined in **Appendix E** of the *Accessibility Features and Accommodations Manual*.
 - If the students in your section need a word-to-word dictionary as an accommodation, have these available to students or allow students to bring their own.

Post a copy of the STOP and GO ON signs in **Appendix C** of the *Test Administrator Manual for Paper-Based Testing* on the board to show students what the signs in the book look like. If one or more students in your section needs a word-to-word dictionary as an accommodation, have these available to students or allow students to bring their own.

Reminders for Test Administrators DURING Large Print Testing

Refer to Sections 4.0 and 5.0 of the *Test Administrator Manual for Paper-Based Testing* for more information on tasks to complete during and after testing.

When announcing the amount of time students will have to complete each section, be sure to adjust the amount of time available to all students who have approved, extended time accommodations.

During testing, you must focus your full attention on the students at all times to confirm that they are working independently. Ensure that all student desks are free of any prohibited materials, and that all prohibited aids in the classroom have been removed or covered. Refer to Sections 2.2 and 2.3 of the *Test Administrator Manual for Paper-Based Testing* for information on prohibited activities and prohibited materials.

If a student starts a test section and leaves school without finishing (e.g., due to illness, family emergency), he or she may be allowed to complete that test on a different day. If you have concerns about a student completing a section before the end of the school day, you should not allow the student to begin. If a student leaves during a section, contact the School Test Coordinator.

If you have questions regarding policy, security breaches, or irregularities, consult your School Test Coordinator.

Read only the bold instructions within each **SAY** box to students. Text that is outside the **SAY** boxes includes directions for Test Administrators to follow and should not be read to students. Refer to Section 4.6 of the *Test Administrator Manual for Paper-Based Testing* for guidance on redirecting students and clarifying directions during an administration. Test Administrators are permitted to clarify **only** scripted administration instructions after reading the script word-for-word. No passages or test items may be clarified.

4.10 Script for Administering Large Print Mathematics

On the first read through, Test Administrators are required to adhere to the scripts provided in this manual for administering the DC CAPE assessment. Read word-for-word the bold instructions in each SAY box to students. You may not modify or paraphrase the wording in the SAY boxes. Some of the SAY boxes are outlined with a dashed line and should ONLY be read aloud if they are applicable to your students. Some directions may differ slightly by section and are noted within the administration script.
